L. H. LEWIS Editor

It was too much "Wilson, that's all!"

Chas. A. Dana and M. H. Alexander, having been defeated for Representatives eliminates there two from the Speakership aspiration. This leaves Messrs. Billings and Hale, with the possible appearance of Mr. Wishart of Barre, as the candidates for the position. All things considered, it looks as if Mr. F. S. Billings of Woodstock is "the coming man."

The biggest majority ever given a Presidential candidate was received by Warren G. Harding, who will have at least 404 votes in the Electoral College. Congress will be strongly Republican in both Houses and the Republican party will see to it that there will be a League of Nations that will not put the United States in the background, but will be fair and square to all other nations. Besides this, the best interests of this country will be looked after "first, last and all the time."

It was a foregone conclusion when Ex-Gov. Graham waived further opposition to the verdict against him that he would be pardoned by Gov. Clement. The Governor did the job before the sentence had got cold, thereby freeing Graham before he had got within a hundred miles of state's prison. There are those who say that the action of the Governor was a just one, in view of Graham's good work as Governor and that he had made restitution of the funds he had used, while others say that Graham should have been compelled to take the punishment due him—a sentence that would have been fully carried out had the man been "some poor fellow." So there you have it. Anyhow, the much mooted case has at last been disposed of. Let us be thankful for that.

## Ex-Gov. Graham is Free

Gov. Percival W. Clement granted a full and unconditional pardon to former Gov. Horace F. Graham, who was sentenced in the Supreme Court to imprisonment for five to eight years for embezzlement of State funds while State Auditor. After sentence was imposed, which included costs of prosecution, Graham was committed to the custody of the Sheriff. Graham was convicted on more than fifty counts of grand larceny. Before the trial he had made restitution of a large part of the \$22,000 alleged to have been taken. His service of many years as State Auditor, during which the larcenies were committed, preceded his two terms as Governor from 1915 to 1919. Gov. Clement, in granting the pardon said: "On account of the distinguished service of Gov. Graham to the State of Vermont and the suffering which he has endured, I feel that he has been punished enough and I have issued him a full pardon."

The Governor also addressed a letter to Graham in which he reviewed the latter's service to the State. In it were extracts from reports of auditors which complimented Graham, who was then State Auditor, on the manner in which the office was conducted, and on the many new and improved methods introduced by him.

## The Gaming Craze.

Is the gaming craze growing? There are some indications in that direction. In every possible way the rather strict laws against it are shaded. Often they are broken outright, if it can be done with a fair chance of escape prosecution. In this locality many stores have what are nothing less than lottery machines, where you put in a penny and get back sometimes nothing, sometimes a small penny's worth and once in a while a nicker, dime or quarter's worth in trade. Gambling, pure and simple. It appears to that instinct. Matching pennies or shaking for the soda is a common pastime, practiced everywhere. Gambling, again. Every country fair reeks with games of chance prohibited by law, but permitted by the management. Why? Because the public want it and the concessionaires pay an extra round price to operate. If a game is only on the level, popular sentiment will generally sustain, or at least tolerate, betting, something that the law in every state prohibits. It is only when the game is crooked that the public makes an outcry. To illustrate, wagers on the outcome of the world's series would be likely to get the bettors into trouble; it was only when the dice were loaded through purchase of players by gamblers, that a howl arose. Is the public very discriminating in this respect at present?—Randolph Herald.

Fred C. Martin, Democratic candidate for governor of Vermont, is against a central normal school and for continuing the two schools at Johnson and Castleton. Here is what he said in some of his campaign speeches: "The Republican organization saw fit to place Vermont behind, educationally, when the normal schools were closed two years ago. As a result the difficulties of getting well qualified teachers have been greatly multiplied. We want these re-established and believe in bringing the school to the children rather than the children to the schools." This reads well and there is probably no objection anywhere to bring the school to the children provided there are children enough to make it worth while.—Bellows Falls Times.

Come out to the Young People's meeting Sunday night. You are most welcome. Our topic is "Winning Our Friends for Christ."—Ref. John 1, 40-51. A good program has been prepared by Miss Thelma Hebb. You will not be sorry if you come, we are sure.

In attempting to lug off a bag of cement, which he had stolen out of a car at the depot and hid behind some ties the thief was discovered and in place of cement a bag of lime was put there. The thief came along and loaded the lime in his wagon, thinking he had made a good haul of cement. At last reports neither the lime nor the man had come back. Who was it? We don't know.

To Remove Lead From Gunbarrels. Chemically pure and strong nitric acid will dissolve the lead in a gun barrel, and will not injure the metal of the barrel unless the acid becomes diluted with a little water. To remove the acid, pour all of it out and wipe the gun dry with a rag soaked in olive or cottonseed oil. Do not get the acid on the hands or clothes. If by chance this happens it should be washed off immediately with water and then some weak alkali.

Shark by No Means Valueless. From the hide of a 500-pound shark it is possible to obtain ten square feet of leather, and the stomach furnishes a raw material which can be made into leather with the appearance and texture of glazed kid, according to the New York Evening Post. The liver will yield anywhere from 10 to 15 gallons of oil and the dorsal fin, when dried, will bring about \$2.50 among oriental epicures.

The health officer, Dr. Slayton, called on Miss Finnegan's school and examined the children for defects in ears, eyes, nose and throat. Next summer he plans to have a specialist come to the different towns and remove tonsils and adenoids free of charge. In the meantime he wishes all the children to sleep in rooms well ventilated and to have tooth brushes. All try it, it sure won't hurt you.

Will Grimes had both his horses shot and buried Wednesday. Not many men but would have sold them; but he says they had worked well and they did not owe him anything. A while back they had a bad attack of horse distemper which left them with some trouble that as soon as they did a hard day's work they could hardly go next day. He did a human act when he paid them and buried them and not let them be swapped over the country.

Well I have been asked a great many times how the election suited. We played a straight game and got beat, but I would like to know who started the story in the North village that Mrs. Goddard was for prohibition and would do all she could to help that party. We had no time to stop it and it hurt us. But it was no clean business and we are proud she got all of her party and quite a few of the other side. Now that is how we all feel. No money was paid, all who voted did as they wished.

While the California Prune and Apple Growers' Association is willing to co-operate in every way with buyers desiring extensions of time, it will stand firmly on its legal rights on all firm at opening price contracts made this year, and will institute court action against any buyers who "wrench" on their contracts, said Aaron Sapiro, attorney for the growers' association, in outlining the position of the association in the present contract controversy.
